#### 11. Town Ordinance Discussion and Vote to Approve – Title 06 Town Streets

Greg – we can't enforce the E-bike regulation but we can enforce the parking issue. Timm – they call the sheriff department for an illegally parked vehicle in Eagle Mountain. They have an agreement with the sheriff's department. Greg – we can enforce the parking issue. Add the language to the proposed ordinance that says we can fine them as well. Put the word "ticketed" before "impoundment" in the text. Change fines in the fine resolution so they are all \$100. Change "physicians" to "medical provider."

#### 19. Building Permit Update and Planning Commission Status

- a. Active Building Permit Reporting no updates from the PC
- b. Planning Commission land use code review PC is still working on proposals and discussions are continuing. See the attached letter to the council regarding recommendations.

#### 20. Other Business

Smith recommended replacing the cargo container at the DPW site with a pre-constructed shed, like those available from Tuff Shed. The cargo container is difficult to open and close and keep secure, and takes us significant space. We purchased the container on 8/13/20 for \$2,980 and could likely sell it for that amount. Greg – we do need a plan for that area. We need to do something in conjunction with the salt pile, instead of just getting rid of the container and replacing it with a tuff shed. What do we do about salt storage and lockable storage. If we built the right thing with the salt we could have a locked room next to it. Maybe we need to make the space bigger for future equipment.

Deputy Town Clerk - Bart and Greg endorsed Claire Osborne to take on some of Bart's tasks.

#### 21. Council Comments - None

#### 22. Adjournment

Council member O'Nan moved to adjourn the meeting. Council member Dixon seconded the motion. The motion passed unanimously. The meeting was adjourned at 7:50 pm. The next regular town council meeting is scheduled for Monday August 12nd, 2024, at 6:30pm via Zoom.

Thank you! With your records and historical imagery we've located, we might be able to submit a lead-free inventory.

Out of the 147 connections, there's just 3 unknowns on the customer side of the meters. Would you be able to check at their house shutoff or ask the owners to check? A form is attached for owners who want to self-check.

Hi Andrew – I will send you an updated lists of homes with active meters. There may be a few errors in GPS locations that we're trying to figure out (with Sensus).

For now, here's my response to what you sent:

LOT 145 - 450 W BERN WAY - YES Service

LOT 59 - 295 W INTERLAKEN DR - YES Service

LOT 6 - 284 W JUNGFRAU HILL RD – YES Service, but not connected to our Sensus analytics system, so I don't have GPS coordinates (it's the only one in town)

LOT 26 - 307 W JUNGFRAU HILL RD - YES Service

Hi Andrew-

Thanks again for meeting with us today. We're looking forward to working with you and Sunrise to get through the lead survey process and also to find out some options for completing a GIS survey of our system.

I've attached these documents, as per our earlier conversation:

- Interlaken Meter Coordinates lat and long listed by address and a unique lot# for each active meter in town
- 120Water-SVY-Interlaken UT 04.12.24 mail in mail in (written postcards) survey responses from 120 Water
- 120Water-SVY-Interlaken UT 04.12.24 online online responses to survey from 120 Water
- Interlaken.UT.MailingListFinal properties that were sent the survey postcard by 120 Water, deemed worthy of inquiry based on the recorded build date. This file has build dates as well as lat/long values for the house (not the meter). It too uses the unique Lot# to identify the property

In addition, here is the link to our website to access our as-built map for the water system: <a href="https://www.town-of-interlaken.com/documents-04">https://www.town-of-interlaken.com/documents-04</a>

Click on 2003 Interlaken Water – Sewer Map As Built to access the document.

Also – I did find the articles of incorporation for the original water company – IMWC as well as the Interlaken Town Certificate of incorporation. Just follow this link to download those docs: <a href="https://www.town-of-interlaken.com/documents-05">https://www.town-of-interlaken.com/documents-05</a>

Thanks again, and let me know if you need anything else,

Bid package is supposed to be completed by 7/15. Not sure what Derek's holdup is. I have asked him several times for his estimates.

Waiting on cost of main road to assess how many other repairs we have money to complete.

That's about it for now. Rich Miller via iPhone

#### Hey Rich -

We have a council meeting tonight and I wanted to report on the road work project. I know we are waiting on these issues – do you have anything to add?

- Waiting for Ryan at Arudurra to complete bid package so we can move forward getting bids
- Waiting for Derek to bid on shoulder work throughout town
- Waiting to get bids from Asphalt Preservation for patches throughout town need to reassess patches throughout town and meet with them

I plan to get a list for Asphalt Preservation done tomorrow – it will be a subset of what Greg and I marked for individual patches. I know that's the holdup on the last one.

Thoughts?

Bart,

There are no updates from the Planning Commission at this time.

I may not be at the meeting tonight because I have a Master Gardener commitment that was changed to this evening. I will try and be there.

Attached is the code concerning the sport courts or pickleball courts where I used Park City as a template. At the end is an addition to the building code for setbacks regarding cantilvered buildings and decks. I lost some of the other changes we determined were needed and will get those to you after I have produced them again. However, please review the following:

The Planning Commission asks the Town Council to discuss and address the following:

Make a determination as to whether or not pickleball and other Sport Courts warrant a change to the Municipal Code regarding Conditional Uses (Section 11.04.040 states that there are no conditional uses allowed in this zone), or to decide whether or not to permit these land uses.

Please note that per the Planning Commission's prior advisement regarding this issue, there are no lots with the town that would meet the minimum distance requirements set forth by sound experts or The Pickleball Association to minimize the affect of the sound on neighboring properties. The sound mitigations recommended do not adhere to current Interlaken Town code.

The Planning Commission also recommends adding a Noise Ordinance to the Municiple Code to help address issues with items such as sport courts and other activities within the town so there are clear guidelines for residents and enforcement.

It is the Planning Commission's view that codifying that these courts are not allowed on residential lots would not cause an undue burden to those making the request as there are multiple nearby parks and recreation facilities to use. They do not fit with the Town Plan of a rural atmosphere which protects residents and wildlife from objectionable noise, odor, dust, fumes, and other deleterious substances or conditions. (Section 11.01.010, H and J). They also do not meet the Noise ordinances of Midway City, Park City, or many other cities and municipalities.

#### **Conditional Use Review Process**

There are certain Uses that, because of unique characteristics or potential impacts on the municipality, surrounding neighbors, or adjacent land Uses, may not be Compatible in some Areas or may be Compatible only if certain conditions are required that mitigate or eliminate the detrimental impacts.

The Planning Commission will evaluate all proposed Conditional Uses and may recommend conditions of approval to preserve the character of the zone, and to mitigate potential adverse effects of the Conditional Use.

A Conditional Use shall be approved if reasonable conditions are proposed, or can be imposed, to mitigate the reasonably anticipated detrimental effects of the proposed Use in accordance with applicable standards.

If the reasonable anticipated detrimental effects of a proposed Conditional Use cannot be substantially mitigated by the proposal or imposition of reasonable conditions to achieve compliance with applicable standards, the Conditional Use may be denied.

The City must review all proposed Conditional Uses according to the following procedure, unless a subsequent provision of this LMC specifically sets forth an administrative approval process for a specific Conditional Use, in which case that section shall control:

- 1. **PRE-APPLICATION CONFERENCE**. An Applicant may request a pre-Application conference with the Planning Department to discuss the proposed Conditional Use and the conditions that the staff would recommend to mitigate proposed adverse impacts.
- 2. <u>THE APPLICATION</u>. An Applicant must file a Complete Application on forms provided by the Planning Commision for Conditional Uses.
- 3. **NOTICE/POSTING**. Upon receipt of a Complete Application, the Planning Department shall provide notice per Section 15-1 -12. NOTICE.

The Planning Commission shall conduct a public hearing on the proposed Conditional Use permit Application and shall either approve, deny, or modify and approve the permit.

- 4. **STANDARDS FOR REVIEW**. The City shall not issue a Conditional Use permit unless the Planning Commission concludes that:
  - 1. the Application complies with all requirements of this LMC;
  - 2. the Use will be Compatible with surrounding Structures in Use, scale, mass and circulation;
  - 3. the effects of any differences in Use or scale have been mitigated through careful planning.
- 5. **REVIEW**. The Planning Commission must review each of the following items when considering whether or not the proposed Conditional Use mitigates impacts of and addresses the following items:
  - 1. size and location of the Site;
  - 2. utility capacity, including Storm Water run-off;
  - 3. emergency vehicle Access;
  - 4. location and amount of off-Street parking;
  - 5. Fencing, Screening, and landscaping to separate the Use from adjoining Uses;

- 6. Building mass, bulk, and orientation, and the location of Buildings on the Site; including orientation to Buildings on adjoining Lots;
- 7. usable Open Space;
- 8. lighting
- 9. physical design and Compatibility with surrounding Structures in mass, scale, style, design, and architectural detailing;
- 10. noise, vibration, odors, steam, or other mechanical factors that might affect people and Property Off-Site;
- 11. within and adjoining the Site, Environmentally Sensitive Lands, Steep Slopes, and appropriateness of the proposed Structure to the existing topography of the Site;
- 12. reviewed for consistency with the goals and objectives of the Town of Interlaken General Plan; however such review for consistency shall not alone be binding.
- 6. **TRANSFERABILITY**. A Conditional Use permit is transferable with the title to the underlying Property so that an Applicant may convey or assign an approved project without losing the approval. The Applicant may not Transfer the permit off the Site on which the approval was granted.
- **EXPIRATION**. Unless otherwise indicated, Conditional Use permits expire one (1) year from the date of Planning Commission approval, unless the Conditional Use has commenced on the project or a Building Permit for the Use has been issued. The Planning Chair may grant an extension of a Conditional Use permit for one (1) additional year when the Applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact or that would result in a finding of non-compliance with the review criteria in Section other provisions of the Land Management Code in effect at the time of the extension request. Change of circumstance includes physical changes to the Property or surroundings. Notice shall be provided consistent with the original Conditional Use permit approval per Section . Extension requests must be submitted in writing prior to the expiration of the Conditional Use permit. The Planning Commission may grant an additional one (1) year extension when the Applicant is able to demonstrate no change in circumstance that would result in an unmitigated impact or that would result in a finding of non-compliance with review or other provisions of the Land Management Code in effect at criteria in Section the time of the extension request. Change of circumstance includes physical changes to the Property or surroundings. Notice shall be provided consistent with the original Conditional Use permit approval per Section \_\_\_\_\_. Extension requests must be submitted in writing prior to the expiration of the Conditional Use permit. 8. **APPEALS**. Appeals must be pursuant to Section herein.

#### 15-4-22 Outdoor Pickleball Courts In Residential Areas

In addition to the criteria outlined in Section 15-1-10 for Conditional Use Permit review, the Planning Commission shall also consider the criteria of this Section \_\_\_\_\_\_. Prior to the issuance of a Conditional Use Permit for an outdoor Pickleball Court on a residential Lot adjacent to residential Lots, the Planning Commission shall make findings and the Applicant must meet the following requirements:

- 1. PRE-APPLICATION CONFERENCE. An Applicant may request an optional pre-Application conference with Planning and Engineering Department staff to become acquainted with Pickleball Court regulations on residential Lots.
- 2. APPLICATION. A complete Application must be submitted to the Planning Department including the following:
  - 1. GENERAL DESCRIPTION. An overview of the proposed outdoor Pickleball Court, including hours of operation, anticipated use, evidence of sufficient required off-street parking, and other applicable information.
  - 2. SITE PLAN. The site plan shall be to scale not to exceed one inch to 100 feet indicating in detail how the proposal will comply with the International Building Code and this Section. The site plan shall indicate the location of the outdoor Pickleball Court on the Property and clearly show distances from all Property Lines and Structures. The site plan shall include elevation contours, adjacent neighboring properties, and neighboring residences. The site plan shall include a grading and drainage plan with storm water runoff calculations.
  - 3. NOISE STUDY. The noise study shall be prepared by a certified professional and shall simulate through engineering models, field noise level data collection, computer generation, or similar techniques, the impact of the proposed outdoor Pickleball Court. The noise study shall indicate the noise impact from at least five (5) locations around and within 150 feet of the proposed outdoor Pickleball Court, in addition to the noise impact measured at all property boundaries. The noise study must also show what alternatives have been considered for the mitigation of noise with the pre- and post-development noise levels. The noise study shall demonstrate that the outdoor Pickleball Court will be constructed and used in compliance with Municipal Code \_\_\_\_\_\_, Noise.
  - 4. ADDITIONAL STUDIES. The Applicant shall pay for the third-party review of the submitted noise study, as directed by the City Engineer. The Planning Commission may require Applicants to submit and fund additional studies, including a visual analysis of the proposed outdoor Pickleball Court. If the Planning Commission requires the Applicant to submit additional studies, the Planning Chair and City Engineer may recommend the scope and method of study.
