

Agenda 10: Traffic Safety Issues

Subject: (none)

Date: Monday, July 6, 2020 at 9:11:45 AM Mountain Daylight Time

From: Chris Burkley

To: Interlaken Clerk

Bart,

- 1) Sign for Big Matterhorn Way below Doreen's driveway.

SLOW Hill Blocks View

I've requested this sign at least twice in the past. We need it as much or more than two signs on Bern Way on sharp blind curve.

- 2) Wildlife Div may not take deer away. Antenna on side of road near gate to WMSP on Big Matterhorn Way should be trashed along with deer.

- 3) Trash (cut up asphalt for road repair) needs to be removed from vacant lot near lower switchback.

Thanks

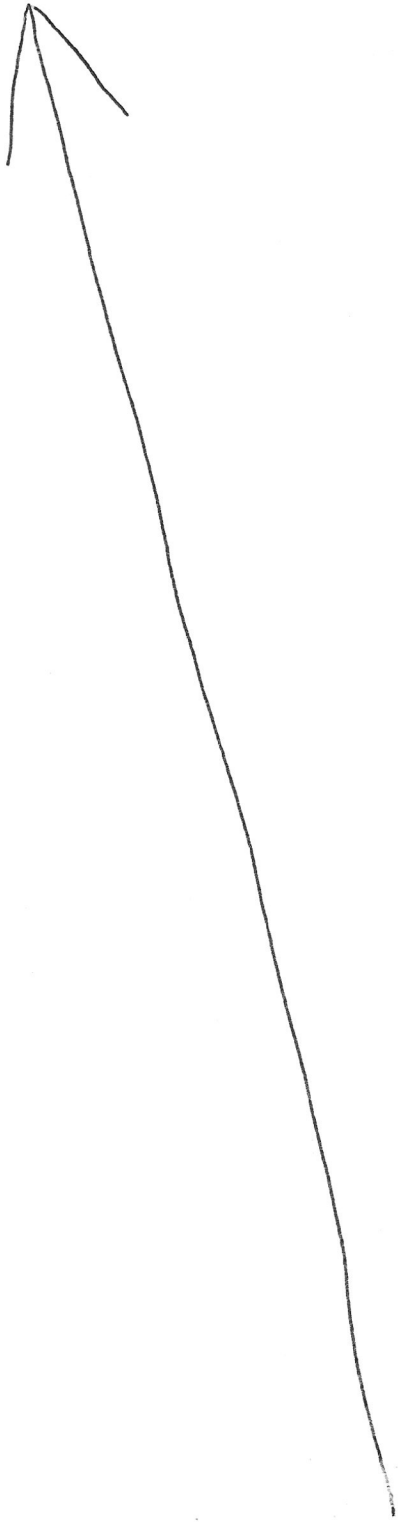

Chris

Subject: Safety with speed limits in Interlaken

Date: Monday, July 6, 2020 at 12:19:38 PM Mountain Daylight Time

From: leslie haarup

To: Bart Smith, Greg Harrigan

CC: Steve Connor, leslie haarup

Dear Greg, Bart and Town Council,

Leslie Haarup & Stephen Martin, 324 Interlaken Drive.

We are currently away but are aware of the petition requesting immediate speed limitations imposed on all the roads in Interlaken Town.

We fully support this effort and wish our names be added to this petition initiated by Steve Connor, 322 Jung Frau Hill Rd.

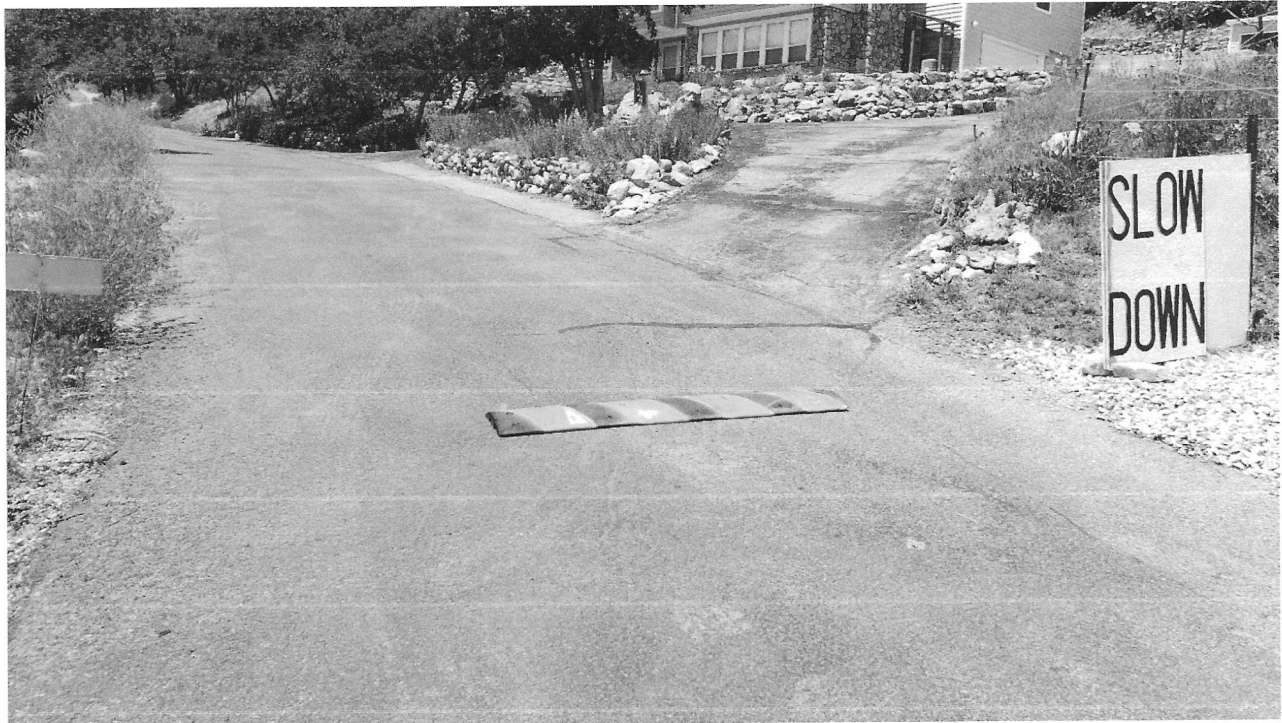

The concern is for all which live in Interlaken, specifically children, walkers and pets to the potential liability to the town not to mention the safety to all.

Best regards,

Leslie Haarup & Stephen Martin
324 Interlaken Road

Are you aware of the new, recently installed speed bump on Jung Frau Way?

This speed bump was installed by our mayor in June due to the complaints of a part time resident on Jung Frau Way. Many of us feel this action was unnecessary and may set a precedent that would allow any homeowner to install unsightly signs and speed bumps in front of their homes at any anytime, making the Interlaken roads even more difficult to navigate and detracting from the beauty and friendliness of our town.

If you, like us, feel that there is a better way to handle a perceived traffic problem, please send Mayor Greg Harrison an email at interlaken.mayor@gmail.com or join us for the town meeting via Zoom tomorrow, July 6th, at 6:30 pm. (Details will posted on the town website later tonight.) Let's join together and keep Interlaken a great place to live for everyone!

Agenda 14: Generator Status

Subject: Fwd: Notice of Potential Fee #26055 Interlaken Mutual Water Co
Date: Monday, June 22, 2020 at 3:26:01 PM Mountain Daylight Time
From: Interlaken Water
To: Bart Smith

Hi Bart,

The Board should be aware of this. I will be working to contact Colt to file the necessary documents so hopefully we do not have to deal with this before we can receive the funding.

Thank you,
Trent Davis

To: Interlaken Water <interlaken.watermaster@gmail.com>
Subject: Notice of Potential Fee #26055 Interlaken Mutual Water Co

According to our database your water system has the following significant deficiency(ies) which triggered a failure to fix treatment technique violation:

COM SYSTEM WITHOUT NATURALLY FLOWING SOURCES LACKS BACKUP POWER
FOR AT LEAST ONE WATER SOURCE 05/22/2019

If this deficiency has been resolved please send proof, pictures if at all possible, of this correction to ddwips@utah.gov.

If this has not yet been resolved, please be aware that starting July 1, 2020, water systems will be assessed a cost recovery fee of \$1,000 per violation for any unresolved significant deficiency. This fee will be reassessed each subsequent quarter the deficiency remains uncorrected.

If you are unable to correct this deficiency by July 1, 2020 you can request a Compliance Agreement/Enforcement Order with the Division. You must submit your request in writing by June 30, 2020 to avoid the fee mentioned above, to Colt Smith at acsmith@utah.gov. If you have questions about this order you can contact him at 801-536-4155 or his email mentioned above.

If you have any questions about this violation please contact me at ddwips@utah.gov or 801-536-4216.

Thanks,

Jen

From: Interlaken Water

To: acsmith@utah.gov, Bart Smith

Hi Colt,

This is Trent Davis with Interlaken Mutual Water Company. System # UTAH26055. We have received a notice that we must file for this order if we are unable to complete the requirement to meet the deficiency by July 1, 2020.

We would like to file for this order and would like to know how we do so. We are waiting for grant approval to complete the project which we filed for last year but have not received as of yet and I believe that the Covid outbreak has slowed the approval process even more. The generator is sitting in the suppliers yard waiting for purchase, the contractors are ready to go to work, but we have been told we can not begin the process in any way until the grant is approved and funded otherwise it will be denied.

This creates a difficult situation for us. Because this is such a substantial amount of money we do not want to risk the loss of a grant on the project, we also do not wish to continue being in violation. \$1000 a quarter for the violation will also create further delays and issues.

Please let us know how you would like us to proceed and what paperwork we must file.

Thank you,
Trent Davis

Agenda 17: Other Business

Subject: Main water line tap expenses at 253 Interlaken Drive

Date: Sunday, July 5, 2020 at 8:43:34 PM Mountain Daylight Time

From: H Macdaniel Ball

To: Bart Smith

CC: Katy Camisa-B

Hi Bart,

We recently excavated a water line from our house toward the main. Instead of finding a stub out, there was only a backflow preventer with rusted out pipes.

We called in the water masters who, after considerable hours of investigation and consultation, decided that we would need to find someone to perform a hot tap on the main.

Witt Excavating agreed to locate the plumbing parts to repair the existing backflow device piping and saddle for the hot tap. The next day they performed the install.

I have paid for the entirety of the excavation cost, and would like Interlaken to repay me for the parts, equipment, and labor time associated with the rusted parts and hot tap.

Either of the water masters can confirm the details.

Please see the billing (below) from Witt Excavating. Total amount is \$2061.02

Thanks,

H

Hot Tap Work

Inbox

Witt Excavating

Hi H,

This is Nick's report for Hot Tap:

8 hrs trackhoe \$1080.

8 hrs hand labor \$320.

Mountainland Parts: \$661.02

Thanks,

Cathy
